(8) the above-quoted certification was made in error, without deceptive intent, and without intent to avoid the \$210 fee;

(9) I discovered the error during the evening of Wednesday, December 21, 1994 while reviewing the file for U.S. Patent Application Serial No. 08/160,691, in connection with the preparation of a response to an Office Action mailed September 22, 1994 for such application;

(15) that all statements made of my own knowledge are true and that all statements made on information and belief are believed to be true, and further that these statements are made with the knowledge that willful false statements and the like are punishable by fine or imprisonment, or both, under 18 USC §1001, and that such false statements may jeopardize the validity of the application or any patent issuing thereon.
